

# **WATER & WASTEWATER TREATMENT**

Vol. 54 - 2011

SPIS TREŚCI

nr 1

## **NEWS**

- 6 NI Water chief executive quits  
Laurence MacKenzie quits NI Water in the wake of Christmas water crisis
- 8 AMP5 Tracker  
Northumbrian names preferred companies

## **PROJECT FOCUS**

- 16 Wastewater treatment for Brighton  
After a decade in the making, Southern Water's Peacehaven plant is under way

## **CONSULTANTS CONTRACTOR FILE**

Special supplement inside

## **FEATURES**

- 21 Tanks and water storage Taking a secure approach with secondary containment
- 24 Sewer networks  
Dorset sees a world first in sewer lining
- 26 Testing water  
Wessex Water undertakes study of DMA in bathing waters; Exova opens a new lab
- 28 Odour control  
The latest technology to monitor sulphides; Ionised air reduces smells in Fleetwood
- 31 Technically speaking  
Membrane bioreactors are getting bigger and better, says Frank Rogalla of Aqualia

## **COMMENT**

- 15 Customer relations  
Barrie Clarke advises a creative approach for water companies wishing to engage customers
- 18 FOG  
Anglian Water's Claire Pillinger advises a solid waste approach for commercial fats, oils and grease (FOG)

## **REGULARS**

- 14 Diary
- 33 Products & Services

## **NEWS**

- 6 Ofwat backs AD study  
The Office of Fair Trading is undertaking a market study into anaerobic digestion
- 8 AMPS Tracker  
May Gurney adds Severn Trent sewerage contract to its haul

## **PROJECT FOCUS**

- 16 East meets west  
The engineering challenges on the two-way main linking Manchester and Liverpool near completion

## **WWT IRELAND**

Full colour supplement on the whole Irish water sector

## **FEATURES**

- 18 Water distribution networks  
Maintaining industry standards on water mains; Overcoming contaminated land on Devon project; Environment preserved in New Forest project
- 25 Energy in water  
Anaerobic digestion helps Cardiff and Swansea plants near energy self-sufficiency
- 28 Pumps and pumping systems  
Effective digester mixing produces gas efficiencies; Temporary contracts helps deliver mega-project
- 34 Safety and security  
WRc research into iron works prompts a proactive approach

## **COMMENT**

- 23 Procurement  
SBWWI white paper urges dialogue on procurement practices
- 32 Private sewers transfer  
UKDP research reveals uncertainty in local authorities

## **REGULARS**

- 14 Diary
- 35 Technically speaking  
Improvements in Ammanox treatment processes are offering alternatives to traditional approaches, says Frank Rogalla of Aqualia
- 37 Products & Services

## **NEWS**

- 10 NI Water review out  
Regulator slams management in review of winter

## **PROJECT FOCUS**

- 12 London replaces Victorian mains  
The challenges of replacing over 580km of mains in the capital

## **WIAA**

- 19 Finalists revealed  
Find out which companies are going head-to-head at this year's Water Industry Achievement Awards
- 20 Innovation award review  
Take a look at the shortlisted technologies for the WIAA innovation categories

## **SUSTAINABLE WATER**

Find out about the latest technologies in WWTs full colour supplement on sustainability in the water and wastewater sector

## **FEATURES**

- 25 Sewer transfer  
How one company is helping the industry develop best practice
- 26 Industrial treatment  
An innovative approach to wetland treatment is proving itself on leachate applications
- 28 Testing the water  
A round-up of developments in instrumentation; Two case studies with South West Water look at suspended solids and pH measurement
- 24 Filtration, Aeration, Separation  
How ultra fine bubble aeration delivers wastewater treatment efficiencies

## **COMMENT/REGULARS**

- 24 Customer engagement  
Barrie Clark of Undercurrent finds ways of getting customers to focus on water
- 14 Diary
- 37 Technically Speaking
- 40 Products & services

## **NEWS**

- 6 DWI inspector wins award  
The water quality regulator's deputy chief inspector wins at the Water Industry Achievement Awards
- 8 Private sewer risk  
Thames Water CEO speaks out on the risk to reputation posed by private sewer transfer

## **INDUSTRY CHIEFS**

- 14 Digging for success  
A year into the post, Martin Baggs, chief executive of Thames Water, shares his fascination with the Utility with WWT editor Natasha Wiseman

## **ROUNDTABLES**

- 24 Carbon reduction  
Find out what was said when industry leaders met to discuss ways of reducing the carbon footprint of wastewater networks

## **FEATURES**

- 20 Water treatment and supply  
Nano technology offers a range of opportunities and challenges for the water industry, says David Spurrof Oracle; Steve Tuckwell, managing director of the Water Regulations Advisory Scheme, explains the risk of a breach
- 30 Sludge management  
Ebcor's managing director, Keith Panter, has observed a global shift away from incineration in recent years
- 34 Flow and surge  
One German country has taken a new approach to managing flow in sewer networks to prevent flooding
- 39 Technically speaking  
Process expert Frank Rogalla shares his admiration for James Barnard, a pioneer of biological nutrient removal

## **EVENTS**

- 36 Water Industry Achievement Awards Find out more about the 2011 winners
- 38 Water NI  
Review of a landmark Conference on sustainability that took place in Belfast in March

## **NEWS**

- 6 Surfers launch real-time sewage alerts  
Service to inform beach users when raw sewage discharged into sea

## **PROJECT FOCUS**

- 12 St Germans reborn  
Reconstruction of the UK's largest land drainage pumping station is now complete

## **INDUSTRY CHIEFS**

- 22 Veolia looks ahead  
Veolia's chief executive Frederic Devos shares his vision for the company

## **FEATURES**

- 18 Communicating Water  
Real-time control cuts energy use at a Wessex Water plant; Thames rolls out WITS DNP3 telemetry
- 29 Civilsin Water  
Tricky main diversion aids bypass project; Augur boring brings flood relief to Blackburn
- 34 Urban drainage  
Options in stormwater management; flood protection installed for youth centre
- 42 Training and recruitment  
Whale opens drain school; Metering courses launched by WRc; WWTs course file

## **EVENTS**

- 16 Diary
- 36 Comment  
Undercurrent's Barrie Clarke asks whether outcome-based regulation is the right course
- 38 Technically speaking  
How data can help deliver network efficiencies

## **NEWS**

- 6 Top performers revealed  
Northumbrian Water and Yorkshire Water have topped the league table in British Water's Survey of Water Company Performance
- 12 Ontario takes the lead on water Ontario hosts global water summit and positions itself for global market

## **THE PUMP ISSUE**

- 16 Pump efficiency  
VSD trial at a Scottish pump station identifies ragging cure; Multi-fold advantages from VSDs, says Danfoss' Craig Rapson; Anglian Water finds urban flood solution with ABS pumps
- 22 Pumps and pumping systems  
Mono provides packaged pumping station for UU site; PC pumps replaced at Bedford works; Manufacturer introduces web-based drive management
- 26 The Pump File  
Find the right pump for your application in WWT's annual guide; Contact details for pump companies in the UK

## **FEATURES**

- 33 Sewage treatment  
A motorway service area make energy savings on a packaged sewage installation
- 34 Sustainable water  
Grit in sewers is getting a policy makeover, says WRc; European water leaders meet in Edinburgh to discuss priority substances

## **EVENTS**

- 38 IWEX review  
A look into some of the launches and events of IWEX 2011

## **REGULARS**

- 30 Comment  
Undercurrent's Barrie Clarke takes a look at the UK's new consensus on bathing water policy
- 40 Technically speaking  
Algae is proving itself as a biofuel, says Frank Rogalla of Aqualia

- 6 UU leads £3M sludge research  
An EC project to reshape the way sewage sludge is dealt with across Europe is being led by United Utilities

### **PROJECT FOCUS**

- 16 Pumping stations  
A critical pumping station near Bristol required a major refit

### **COMMENT**

- 20 Water and energy efficiency A combined message on water and energy is needed for customers says Andrew Tucker of the Energy Saving Trust  
26 Environment White Paper  
Putting a value on the environment is vital says Barrie Clarke of Undercurrent

### **FEATURES**

- 22 Industrial treatment  
Two case studies for DAF treatment in food production; Fine filtration implemented to improve plastics production  
38 Energy in water  
Bringing in pumps as turbines; Maximising drive efficiencies

### **THE PIPE ISSUE**

- 28 Sustainability  
The whole life of pipes needs to be considered in evaluating sustainability, says Stuart Crisp of the CPSA  
30 Flow and surge  
A new Scottish water treatment plant has installed a surge vessel; Metso enhances UK service offering  
35 The Pipe File  
Find the right product or service for your pipe project in WWTs annual guide; Contact details for the UK pipe industry

### **REGULARS**

- 14 Diary  
42 Technically speaking

## **NEWS**

- 06 Thames announces solar plan  
Utility Thames Water is planning a £7M investment
- 10 India jacks up infrastructure investment  
Opportunities for UK companies as India puts money into water

## **FEATURES**

- 16 Integrated resource management Paul Shaffer of Ciria shares the benefits of water sensitive urban design
- 20 Odour control  
Pumps help deliver fine misting odour solution; Terminodour system offers energy savings
- 22 Supply chain engagement  
How water companies can get the best out of their suppliers and partners
- 24 Sludge handling  
The latest US research on removing nanosilver particles from sludge;  
An innovative sludge treatment technology developed in Ireland offers sustainability advantages
- 39 Data management  
Data intelligence and automation technology can offer operational efficiencies

## **COMMENT**

- 12 Policy  
The Environmental Industries Commission asks if the regulatory review offers an end to boom and bust
- 18 Water charging  
Undercurrent's Barrie Clarke looks for a fairer deal for consumers

## **THE TANK FILE**

- 31 The Tank File  
Find the right tank product or service for your application; new section on tank monitoring equipment; contact details for the UK tank industry

## **REGULARS**

- 14 Diary
- 41 Technically speaking  
Wisdom from wastewater guru Frank Rogalla

## **NEWS**

- 06 Scottish Water 'misled' Parliament  
The public utility for Scotland may have led the Scottish Parliament over PFI contracts, says Unison

## **PROJECT FOCUS**

- 12 Polperro outfall project  
South West Water has all but completed its mammoth 20-year programme of coastal works with an screening station and outfall project at Polperro in Cornwall

## **FEATURES**

- 18 Filtration, separation and aeration  
Ultrafiltration used in Italian island application; Short-term hire, an option for aeration
- 24 Industry chiefs  
Yorkshire water chief executive Richard Flint shares his views on climate change, carbon and customers with WWT's Natasha Wiseman
- 28 Testing the water  
A monitoring project in a Welsh Estuary could help the Environment Agency identify the cause of cockle deaths in the area
- 32 Private sewer transfer  
Find out how water and sewerage companies are managing their newly acquired assets with H/H/Fs exclusive survey
- 39 Urban drainage  
A round-up of views from the Stormwater Management Conference held in Solihull; A retrofit SUDS project in Islington is capturing the interest of the water companies

## **COMMENT**

- 26 Customer service  
Is the public service ethos in the water sector at risk, asks Barrie Clarke of Undercurrent

## **EVENTS**

- 14 Diary  
Forthcoming industry events
- 22 Aquatech preview

**NEWS**

- 06 Halcrow succumbs to buy out.  
Acquisition of Halcrow by US construction giant CH2M Hill imminent

**PROJECT FOCUS**

- 12 Maize fuels sewage works  
A Severn Trent project to use crops grown on contaminated land is delivering carbon savings

**FEATURES**

- 18 Sewerage networks  
Planning changes for big infrastructure anticipated; CIPP is the only way for Essex sewers
- 24 Water treatment & supply  
Pilot project perfects a new way to clean filter media; Packaged lamella DAF plant aids South West Water
- 28 Testing the water  
Celebrating a new generation of techniques for the monitoring and control of chemicals; Eden test project goes live

**COMMENT**

- 22 Sustainability  
Is it, asks Barrie Clarke, the end of sustainability as we know it?
- 33 Supply Chain Carl Millington of Achilles on streamlining the supply base

## **NEWS**

- 06 Companies on report over leakage  
Ofwat releases annual performance survey

## **FEATURES**

- 24 Pumps and pumping systems  
Power station pumps help counter low flow in Italian river; Energy efficiency delivered at Victorian pumping station; Dosing resolves vapour locking at US wastewater treatment plant
- 30 Private sewer transfer  
How was it for you? Round-up of water companies' experiences; a new hub gets sewerage professionals talking
- 36 Communicating water  
Scada technology aids remote monitoring in small pumping stations; Yorkshire Water uses photography to monitor operations teams

## **IN THE PIPELINE**

Special supplement in the centre

## **COMMENT**

- 14 Environment  
Sam Ibbot of the EIC questions the Government's commitment to the environment
- 20 White Water Paper  
Barrie Clarke looks forward to a stable future

## **NEWS**

- 10 ITT spins out water business  
The water arm of ITT Corporation has created a new business for water called Xylem

## **FEATURES**

- 18 Sustainable water  
Water efficiency treatment system for L'Oreal plant in China; Compact recycling plant enhanced
- 23 Industrial systems  
Pharmaceutical plant improves DO sensing; Metals tackled at Royal Mint; Heineken tries new micronutrients for Spanish brewery
- 26 Flow and surge control  
Actuators upgraded at Welsh treatment works; Thames opts for US plug valves at Crossness
- 29 Sewage and sludge  
Industry responds to Office of Fair Trading report on anaerobic digestion; Round-up of sewage applications

## **COMMENT**

- 16 Corporate responsibility  
Barrie Clarke of Undercurrent asks, can responsible companies survive the economic climate?
- 22 Customer care  
MWH's John Buttz reflects on the role of consumers in the water industry
