

Modern polymeric materials for environmental applications : 4th International Seminar Kraków, 1-3 Dec. 2010 : including COST MPO701 workshop "Environmental impact of polymer nanocomposites - from preparation to recycling". Vol. 4, Iss. 2 / ed. by Krzysztof Pielichowski. – Kraków, cop. 2010

Contents

Contents	V
The Response of Stilbene Derivatives to Changes of Medium Polarity and Microviscosity during Free Radical Polymerization of Poly(Ethylene Glycol) Diacrylate Joanna Ortyl, Katarzyna Sawicz-Kryniger, Mariusz Galek, Roman Popielarz	1
Investigation of UHMWPE/PAs Composites Using DSC with Stochastic Temperature Modulation Joanna Pagacz, Jan Pielichowski, Jolanta Polaczek, Kinga Pielichowska	11
Thermal and Artificial Weathering of Poly(vinyl chloride)/Montmorillonite Nanocomposites - Structural and Morphological Investigations Joanna Pagacz, Krzysztof Pielichowski	17
Properties of Zinc Phthalocyanine Used as Flame Retardant of Acrylonitrile- Butadiene Rubber Agnieszka Pająk, Grażyna Janowska	25
Investigation on Polymer-based Nanocomposite Materials by Vibrational Spectroscopy Czesława Paluszkiwicz, Ewa Stodolak, Marta Błażewicz, Aleksandra Weselucha- Birczyńska	33
Integration of Experimental Evidence from Nano- to Submicrosized Granular Biopersistent Particles Jiirgen Pauluhn	39
Palm Oil-based Polyols for the Synthesis of Different Polyurethane Materials Henryk Pawlik, Aleksander Prociak	47
Studies of Polyoxymethylene/Hydroxyapatite Nanocomposites by DSC with Stochastic Temperature Modulation Kinga Pielichowska	51

Embryotoxicity of Engineered Nanoparticles Antonio Pietroiusti	57
Study on the Vulcanization of SBR by Cumene Hydroperoxide and Selected Ionic Liquids Martyna Pingot, Tomasz Pingot, Marian Zaborski	63
Microwave-assisted Synthesis of Polysuccinimide/Octadecylamine Copolymer For Pharmaceutical Applications Jolanta Polaczek, Marek Piątkowski, Małgorzata Skrzyp	67
Effect of Waste Keratin on Cross-Linked Butadiene-Styrene Rubber Properties Mirosława Prochoń, Anita Przepiórkowska, Grażyna Janowska	71
Polyurethane-POSS Organic-Inorganic Hybrid Materials. The Effect of Soft Segment Length and Nanoparticle Content on the Molecular Dynamics Konstantinos N. Raftopoulos, Bartłomiej Janowski, Lazaros Apekis, Krzysztof Pielichowski and Polycarpus Pissis	81
Synthesis of Rapeseed Oil-based Polyols with Different Functionality for Flexible Polyurethane Foams Piotr Rojek, Aleksander Prociak	91
Thermal Properties and Flammability of Nanocomposites based on Butadiene- Acrylonitrile Rubber Przemysław Rybiński, Grażyna Janowska, Agnieszka Kucharska-Jastrzqbek	95
Rigid Polyurethane Foam and Expandable Polystyrene Bead Composites Anna Sabanowska, Elżbieta Malewska, Jerzy Polaczek	107
NANOKEM: Nanoparticles in the Paint and Lacquer Industry. Exposure and Toxic Properties Anne Thoustrup Saber, Keld Alstrup Jensen, Karin Sørig Hougaard, Ismo Koponen, Søren Thor Larsen, Nicklas Raun Jacobsen, Renie Birkedal, Frank Fotel, Martin Roursgaard, Lone Mikkelsen, Peter Møller, Stejfen Loft, Håkan Wallin and Ulla Vogel	111
Assessment of Risks of and Exposure to Engineered Nanoparticles with an Emphasis on Nanocomposites Kai Savolainen	121
The Performance of 7-(Diethylamino)coumarin-3-carboxylic Acid as a Chemically Bondable Fluorescent Probe and a Fluorescent Marker for Epoxy Compositions Katarzyna Sawicz-Kryniger, Joanna Ortyl, Roman Popielarz	129

New Cinnamic Acid Esters of Various Polysaccharides and Their Solution and Antioxidative properties Iva Sroková, Katarina Kostelanska, Lydia Rychla, Anna Ebringerova, Katarina Csomorova	141
(Bio)degradation of (PEO/PAA)/Fluorouracil systems Iwona Stachurek, Krzysztof Pielichowski	147
Toxological Aspects of Nanoparticles Anna A. Stec, Jennifer Rhodes, Cameron Smith	153
Environmentally Friendly Polymeric Materials Based on Modified Polymers Tomasz Sterzyński	161
Durability of Nanocomposite Materials Based on Poly-L/DL-lactide Matrix Ewa Stodolak-Zych, Aneta Fraczek-Szczypta, Marta Błażewicz	169
Mechanical Properties of Polyurethane - Rubber Composites Obtained from Polyurethane and Rubber Waste Wiesław W. Sułkowski, Gabriela Bartecka, Anna Sułkowska, Jerzy Borek, Sławomir Maślanka, Adam Danch, Marek Moczyński	175
The influence of Temperature of Destruction Process on Yield of Industry Installation of Polymer Waste Thermo-Destruction Wiesław W. Sułkowski, Wioletta Famulska, Anna Sułkowska, Marek Moczyński	181
The Usage of Recycled Polystyrene Waste to Clean Water from Heavy Metal Ions Wiesław W. Sułkowski, Krzysztof Nowak, Anna Sułkowska	189
Nanomaterials: Applications and Implications Rao Y. Surampalli, Guobin Shan, Rajeshwar D. Tyagi, Tian Zhang, Keith C. K Lai	199
Degradation of PLA/Hemp and PLA/Jute Composites Barbara Szaraniec, Tomasz Goryczka	215
Rheological Properties of Modern Polymer-based Ointment Bases Compared to Traditional Ointment Bases Used in Pharmacy Barbara Tal-Figiel, Magdalena Kwiecień, Wiesław Figiel	225
The Influence of Polymer Coatings on the Interaction Between Nanoparticles and Serum Albumin Lennart Treuel, Marcelina Malissek and Reinhard Zellner	233

Preparation and Characterization of Novel Hydrogels Containing Nanosilver for Biomedical Applications Bożena Tyliszczak, Krzysztof Pielichowski	241
NANOPOLYTOX: Toxicological Impact of Nanomaterials Included in Polymer Nanocomposites along their Life Cycle Socorro Vazquez-Campos, Elisabet Fernandez-Rosas, Marc Masa, Francesc Mitjans, Laurent Aubouy	247
Investigation of the Short Circuit Current Density Within a Dye Sensitized Solar with p-conducting Polymer Jochen Wagner, Uli Wiirfel, Andreas Hinsch, Joachim Luther	255
Modification of Poly(ester Urethane)s towards Increasing the Susceptibility to Enzymatic Degradation Joanna Wojturska	263
Radiation Protection of Silicone Composites Containing Bismuth Compounds Marian Zaborski, Edyta Kusiak, Henryk Bem, Włodzimierz Baryń	271
Author index	277
Subject index	281
