

Modern polymeric materials for environmental applications : 5th International Seminar Kraków, 15-17 May 2013 including COST MP1105 workshop "Nanoparticles for flame retardancy : challenges and risks". Vol. 5, Iss. 2 / ed. by Krzysztof Pielichowski. – Kraków, 2013

Spis treści

Contents	V
Synergistic Interactions of Nanoparticles and Phosphorus-based Flame Retardants: Recent Developments <i>Shuyu Liang, Sabyasachi Gaan</i>	1
New Polyester Resins with Enhanced Thermal Stability <i>Renata Lubczak</i>	9
Polyurethane Foams with Enhanced Thermal Stability and Lower Flammability <i>Jacek Lubczak, Renata Lubczak, Beata Łukasiewicz</i>	17
Thermal Stability and Flammability of Flame-retardant Polymer Materials Exposed to Heat Radiation <i>Waldemar Machnowski, Henryk Wrzosek</i>	25
Precological Elastomer Composites Containing Ionic Liquids <i>Magdalena Maciejewska, Filip Walkiewicz, Marian Zaborski</i>	33
Purification of Plastic Waste Derived Pyrolytic Oil Through Silver Adsorption: the Influence of Organic Oxygen Compounds on Chlorine Removal <i>Katarzyna Maciszewska, Oskar Bartyzel, Krzysztof German</i>	43
Mechanical Properties of Polyamide-6 Nanocomposites with Different Content of Montmorillonite <i>Tomasz M. Majka, Agnieszka Leszczyńska, Krzysztof Pielichowski</i>	49
The Influence of Apparent Density of Polyurethane Matrix on Selected Properties of Its Foamed Composites with Expanded Polystyrene <i>Elżbieta Malewska, Anna Sabanowska, Aleksander Prociak, Jerzy Polaczek</i>	57
Conductive Textiles: Formation, Properties, and Stability <i>Matej Mičušík, Katarina Mosnáčková, Pavol Fedorko, Mohamed M. Chehimi, Maria Omastova</i>	63

The Release-ability of Nanofillers into the Environment from Polymer Nanocomposites Intended for Structural Applications <i>James Njuguna, Sophia Sachse, Sławomir Michałowski, Agnieszka Leszczynska, Krzysztof Pielichowski, Huijun Zhu</i>	71
Bulk Heterojunction Solar Cells Built on P3HT and Pyrazoloquinoline Derivatives with TiO ₂ Nanoparticles <i>Natalia Nosidlak, Andrzej Danel, Ewa Kulig, Robert P. Socha, Jerzy Sanetra</i>	79
Fluorescence Probes Based on Aminophthalimide Skeleton as a Research Tool in Real-time Monitoring of Photopolymerization Processes by Fluorescence Probe Technology <i>Joanna Ortyl, Piotr Milart, Roman Popielarz</i>	87
Soil Burial Tests of Poly(Vinyl Chloride)/Montmorillonite Nanocomposites <i>Joanna Pagacz, Krzysztof Pielichowski</i>	95
Influence of Natural Oil-based Polyols on Selected Properties of Viscoelastic Polyurethane Foams <i>Henryk Pawlik, Aleksander Prociak</i>	101
Overview of the Intrinsic and Superficial Flame Retardant Solutions based on Nanoclays and Carbon Nanotubes for Fiber Reinforced Polymer Composites <i>Celeste M. C. Pereira, Marta S. S. Martins</i>	107
Nanoparticles Interactions with Cells and Tissue: Selected Issues <i>Claudia Philippi, Christina Koerbel, Matthias W. Laschke, Michael D. Menger, Ulrich F. Schaefer, Claus-Michael Lehr, Brigitta Loretz</i>	115
Recovery of Heavy Metal Ions from Chitosan/Aspartic Acid Hydrogel <i>Marek Piątkowski, Piotr Radomski, Dariusz Bogdał</i>	123
Polyurethane-based Phase Change Materials with Graphene <i>Kinga Pielichowska, Piotr Szatkowski</i>	129
Thermal Transitions and Segmental Dynamics in Polymer Nanocomposites <i>Polycarpos Pissis, Panagiotis Klonos, Sotiria Kriptomou, Apostolos Kyritsis</i>	135
Urea-Hydrogen Peroxide Adduct as an Ecological and Efficient Oxidant of Organic Compounds <i>Anna Podraza, Jan Pielichowski</i>	143

Application of Ultra-high Molecular Weight Polyethylene Modified with Poly(aspartic acid) for Implant Materials <i>Jolanta Polaczek, Tomasz M. Majka, Maciej Świstak, Krzysztof Pielichowski</i>	149
Synthesis of Biodegradable Poly(aspartic acid)/octadecylamine Copolymer Under Microwave Radiation <i>Jolanta Polaczek, Marek Piątkowski, Gabriela Kusak</i>	157
Rigid Polyurethane Foams Synthesized with Bio-polyol and Vegetable Post-production Waste <i>Aleksander Prociak, Maria Kurańska, Karolina Szura</i>	163
Environment-friendly Method for Obtaining Gold Nanoparticles Based on Plant Extract <i>Jolanta Pulit, Marcin Banach</i>	169
Segmental Dynamics and Microphase Separation of Polyurethane-POSS Hybrids with Particles as Part of the Hard Segments of the Main Chain <i>Konstantinos N. Raftopoulos, Małgorzata Jancia, Dionysia Aravopoulou, Krzysztof Pielichowski, Polycarpos Pissis</i>	177
Structure-property Relationship of Polyurethane Flexible Foams Modified with Different Rapeseed Oil-based Polyols <i>Piotr Rojek, Aleksander Prociak</i>	187
Influence of Attapulgit Modified by Silane on Thermal Properties and Flammability of Diene Rubber Composites <i>Przemysław Rybiński, Grażyna Janowska, Agnieszka Pająk</i>	193
Flame Retardancy of Polymer Nanocomposites <i>Guobin Shan, Wenbiao Jin, Rao Y. Surampalli, Anushuya Ramakrishnan, R.D. Tyagi, Tian C. Zhang</i>	205
Epoxidized Plants Oils as Renewable Resources for Polymers Synthesis and Modification - a Discussion on Opportunities and Challenges of the Perspective Technology <i>Anna Sienkiewicz, Piotr Czub</i>	213
Novel Catalyst Immobilized on the Polyaniline Matrix for the Oxidation Reaction of Various Organic Compounds <i>Anna Sienkiewicz, Jan Pielichowski</i>	221
The Schiff's Complexes on the Polymer matrix as New Catalytical Systems - a Discussion on the Effectiveness in the Oxidation Process <i>Anna Sienkiewicz, Jan Pielichowski</i>	227

Conductivity and pH Changes of Physiological Fluids Incubated in the Presence of Polymer-Hydroxyapatite Composites <i>Agnieszka Sobczak-Kupiec, Bożena Tylińczak, Dagmara Malina, Katarzyna Bialik-Wąs, Zbigniew Wzorek</i>	235
Utilization of Natural Biopolymer - Keratin - from Renewable Animal Byproducts <i>Paweł Staroń, Marcin Banach, Zygmunt Kowalski</i>	241
Carbon Micronization with Polymer Additive - Generation of Energy in an Environmentally-friendly Manner <i>Anita Staroń, Marcin Banach, Zygmunt Kowalski, Paweł Staroń</i>	249
Characterization of Acrylic Hydrogels Modified by Bee Pollen <i>Bożena Tylińczak, Katarzyna Bialik-Wąs, Agnieszka Sobczak-Kupiec, Adam Tofilski</i>	257
Oligomeric Acrylates Modified by Nanosilver as Dispersants for Hydroxyapatite in Aqueous Environment <i>Bożena Tylińczak, Agnieszka Sobczak-Kupiec, Katarzyna Bialik-Wąs, Stanisław Kuciel</i>	263
Comparison of Toxicity from Tube Furnace with Toxicity/Inefficiency of Combustion from Cone Calorimeter for Halogen Free and Halogenated Fire Retarded Polymers <i>Sebastian Ukleja, Michael Delichatsios, Mathieu Suzanne</i>	267
Environmental Friendly Nanocomposites of Natural Rubber Matrix / Cellulose and Chitin Nanowhiskers <i>P. M. Visakh, Thomas Sabu</i>	277
Spectral Response Measurements on Dye Sensitized Solar Cells with p-conducting Polymer <i>Jochen Wagner, Andreas Hinsch, Joachim Luther</i>	283
Pyrolysis Modelling of Polymers with Fire Retardant Additives <i>Artur Witkowski, Anna A. Stec, T. Richard Hull</i>	291
Influence of the Enzymatic Treatment on the Properties of Isosorbide Based Polyurethanes <i>Joanna Wojturska</i>	301
A review: The Role of Interface in Reinforced Polymer Nanocomposites <i>Elif Özden Yenigün, Oğuzhan Oğuz, Yusuf Ziya Menciloğlu</i>	311

Effects of Chemical Treatments on Physical Properties of Flax Fibres
Jinchun Zhu, James Njuguna, Joanna Pagacz, Hrushikesh Abhyankar,
Krzysztof Pielichowski, Huijun Zhu, Kirsi Immonen, Antti Nurmi 319
