

Modern polymeric materials for environmental applications : 5th International Seminar Kraków, 15-17 May 2013 including COST MP1105 workshop "Nanoparticles for flame retardancy : challenges and risks". Vol. 5, Iss. 1 / ed. by Krzysztof Pielichowski. – Kraków, 2013

Spis treści

Preface	V
Contents	VII
Sodium Tripolyphosphate as a Stabilizing Agent for Nanosilver <i>Marcin Banach, Jolanta Pulit</i>	1
Mechanical Properties of HDPE/Recycled Montmorillonite Composites <i>Oskar Bartyzel, Tomasz M. Majka, Agnieszka Leszczyńska, Krzysztof Pielichowski</i>	11
Preparation of Epoxy Resins Cured with Ionic Liquids as Novel Supports for Metal Complex Catalysts <i>Natalia Bączek, Krzysztof Strzelec, Karolina Wąsikowska, Juliusz Pernak</i>	17
New Method of Cyclodextrin-based Macroporous Polyurethanes Preparation <i>Szczepan Bednarz, Kamila Marciszewska, Dariusz Bogdał</i>	25
The Effect of Aloe Vera on the Properties of Acrylic Hydrogels <i>Katarzyna Bialik-Wąs, Bożena Tyliczszak, Krzysztof Pielichowski</i>	33
Photopolymerization of Acrylic Acid Modified by Nanoparticles <i>Katarzyna Bialik-Wąs, Bożena Tyliczszak, Agnieszka Sobezak-Kupiec, Joanna Ortyl, Zbigniew Czech</i>	41
Influence of the Nanomorphology on the Reaction to Fire of Flame retarded Polymers <i>Serge Bourbigot, Fabienne Samyn, Séverine Bellayer, Gaëlle Fontaine, Sophie Duquesne</i>	49
The Thermal Behaviour of Nanoparticles and Nanocomposites <i>Giovanni Camino, Federico Bellucci, Alberto Frache, Alberto Fina</i>	59
Evaluation of Gaseous Effluents and Aerosols Emitted During Combustion of Nanocomposites	

<i>Carine Chivas-Joly, Laurent Saragoza, Charles Motzkus</i>	67
Ecological Methods of Syntheses of Oligoetherols Suitable for Production of Thermostable Polyurethane Foams <i>Karina Cyzio, Ewelina Góra, Jacek Lubczak</i>	79
Flame Retardation of Bisphenol A-based Epoxy Resin - Study on Mechanical Properties and Thermal Stability <i>Piotr Czub, Izabela Augustyn, Jan Pielichowski</i>	87
Nanoparticles in Flame-Retardant Coatings for Flexible Polyurethane Foams: Effects on Flammability and Nanoparticle Release <i>Rick D. Davis, Yeon Seok Kim, Richard H. Harris, Marc Nyden, Nasir Uddin, Jeffrey W. Gilman, Mauro Zammarano</i>	93
Synthesis and Characterization of Polyurethane Foams Modified with Stabilized Rapeseed Oil-based Polyols <i>Sylwia Dworakowska, Dariusz Bogdał, Federica Zaccheria, Nicoletta Ravasio</i>	103
Nanoparticles in Flame Retardancy of Polymers. Effectiveness in Different Fire Tests <i>Alberto Fina, Giovanni Camino</i>	111
Production and Characterization of Stereocomplexed Polylactic Acid Composites Filled with Expanded Graphite <i>Gaëlle Fontaine, Antoine Gallos, Serge Bourbigot</i>	117
Preparation, Characterization and Evaluation of Mechanical Properties of Linseed Oil- modified Alkyd Paints <i>Ilona Franek, Sylwia Dworakowska, Dariusz Bogdał</i>	125
Sol-gel Synthesis of Organic Gels: Effects of the Temperature, Catalyst and Reactants' Concentrations <i>Katarzyna Gaca, Jan Sefcik</i>	131
Fire Effluent Toxicity of a Nanocomposite Flame Retarded Polylactide <i>Antoine Gallos, Gaëlle Fontaine, Anna A. Stee, Serge Bourbigot</i>	141
Additional Information on the Health and Safety of Clay/Polymer Nanocomposites - the Size of Clay Particles and their Comparison to the Dust on Street <i>Fengge Gao, Rinat Nigmatullin</i>	149
Fire Retardant Coatings for Textiles Based on Nanoparticles	

and Conventional Flame Retardants <i>Weronika Gieparda, Szymon Rojewski, Maria Władyka-Przybylak</i>	157
Nanosize Mineral Fillers to Replace Sb ₂ O ₃ Synergist in PVC Flame Retardant System <i>Outi Härkki, Eetta Saarimäki, Kalle Kiviranta</i>	167
Polyurethane/POSS Nanohybrids - Chemical structure and Morphology <i>Edyta Hebda, Małgorzata Jancia, Michał Dutkiewicz, Bogdan Marciniak, Krzysztof Pielichowski</i>	175
DNA-Lipid Complex with Carbazole: Preparation and FT-IR Characterization <i>Edyta Hebda, Jan Pielichowski</i>	181
Study of UV Ageing of Polyurethane Elastomers Modified by Polyhedral Oligomeric Silsesquioxanes <i>Małgorzata Jancia, Edyta Hebda, Krzysztof Pielichowski, Adrian Franczyk, Bogdan Marciniak</i>	187
Effect of Organically Modified MMT and Starch Oleates as Additives on the Properties of Natural Rubber Blends <i>Ladislav Janek, Iva Sroková, Jaroslava Janičková</i>	193
Nanoparticulate Flame Retardants for Structural Composites <i>Baljinder K. Kandola</i>	201
Fire Retardancy of Polymer Nanocomposites: Recent Advances and Future Prospects <i>Pantelis Kiliaris, Constantine D. Papaspyrides</i>	211
Role of Different Nanoparticles in Flame Retardant Polyamide 11 Nanocomposites <i>Joseph H. Koo, Si Chon Lao, Ayou Hao, Tess J. Moon, Gerhardt E. Wissler, Louis A. Pilato, Jitendra Tate</i>	219
Optimal Synthesis and Characterization of Antioxidative Activity of Hydrophobically Modified HEC Esters <i>Katarína Kostelanská, Iva Sroková, Lýdia Rychlá, Zdena Hromádková, Vlasta Sasinková, Katarína Csomorová, Anna Ebringerová</i>	231
Application of Polymer Coagulants for Treatment of Agricultural Wastes <i>Zygmunt Kowalski, Agnieszka Makara, Marta Marszałek</i>	239
Shape Memory Polymers in Medical Applications	

<i>Marek Kozłowski</i>	245
Surface-active and Performance Properties of Novel Hydroxyethylcellulose Derivatives <i>Vladimíra Krmelová, Iva Sroková, Vlasta Sasinková</i>	251
Optimization of the Poly(urethane methacrylate) Tri-block Copolymers Synthesis using Different Types of Polyurethane Macroinitiators <i>Piotr Król, Paweł Chmielarz</i>	259
Surface and Thermal Properties of the Poly(urethane methacrylate) Tri-block Copolymer Coatings <i>Piotr Król, Paweł Chmielarz</i>	269
Influence of the Chemical Composition on Chosen Properties of Polyurethane Elastomers in Terms of their Use as Biomaterials <i>Piotr Król, Bożena Król, Paweł Chmielarz, Joanna Wojturska</i>	279
Co-agents for Crosslinking of Elastomers <i>Alicja Krzywania-Kaliszewska, Magdalena Maciejewska, Marian Zaborski</i>	291
Polyamides 10,10 from Renewable Sources Reinforced with Glass Fibers as Novel Structural Materials <i>Paulina Kuźniar, Stanisław Kuciel</i>	301
Surface modification of crystalline cellulose nanoparticles (CCN) towards structural and functional materials - methods, applications and performance <i>Agnieszka Leszczyńska, Krzysztof Pielichowski</i>	307
Surface Modification of Microfibrillated Cellulose by Heterogeneous Acetylation for Bio-based Polyamide Composites <i>Agnieszka Leszczyńska, Krzysztof Pielichowski, Richard Justin, Biqiong Chen</i>	319
